FYI – I will be coming up to Columbia Falls next week. We may want to discuss how to respond to these on-going community interests.

Hi Mike:

Just wanted to follow up on our discussion regarding the potential for consultant assistance related to the CFAC site.

It was our understanding that you thought a “visioning” effort would be useful to the City, especially if Replan is undertaking a similar type of planning effort on behalf of Glencore. Would you want to meet with a consultant(s) in early January to discuss this process in more detail, and how this might get started?

We can follow up with EPA on the funding end –

Chas will be at the CFAC mtg next week --

Thanks Mike –

Caryn
